CORSAIR Crystal 460X RGB Tempered Glass, Compact ATX Mid Tower Case

Overview

100 Word Product Description, Preferred Copy

We've engineered the Crystal 460X RGB to pack all the performance and expandability you need into a beautifully modern and compact case design with vivid illumination from our SP120 RGB LED fans. Put your build on display through beautiful two-panel tempered glass and keep it all running cool and quiet with Direct Airflow technology. With tool-free drive installation and three-point dust filter access, the CORSAIR Crystal 460X is easy to build — and even easier to keep clean. You'll spend less time on setup and maintenance, and more time enjoying your PC.

50 Word Product Description

We've engineered the Crystal 460X RGB to pack all the performance and expandability you need into a beautifully modern and compact case design with vivid illumination from our SP120 RGB LED fans. Put your build on display through beautiful two-panel tempered glass and keep it all running cool and quiet with Direct Airflow technology.

Overview

25 Word Product Description

Beautifully simple and engineered to perform: the Crystal 460X with beautiful two-panel tempered glass, Direct Airflow cooling technology, and SP120 RGB LED fans is compact, expandable, and gorgeous.

Features

Style 1

- Beautiful two-panel tempered glass displays every component of your build
- Included SP120 RGB fans for excellent performance and vivid illumination
- Clean, modern lines with an all steel exterior
- Compact Mid Tower design fits full sized ATX boards and multiple graphics card configurations
- Direct air flow access to the hottest components with no drive cages in the way
- Capable liquid cooling support for both CPU and GPU loops
- PSU and 3.5" modular covers conceal cables and drives, and can be relocated or removed entirely for easy assembly
- Full dust filtration on bottom, front, and top
- Tons of cable-routing options and tie downs so cables can be easily tucked out of the way
- Tool-free drive installation for quick builds
- Front radiator compatibility for up to a single 360mm radiator or multiple 120/140mm radiators

Style 2

- **Beautiful two-panel tempered glass:** Immaculately display every component of your build.
- **Three SP120 RGB LED fans:** Light up your build with brilliant LED effects and draw ample cool air directly to your components without the turbulence that can cause fan hum.
- **Clean, modern lines with an all steel exterior:** Get rid of those plastic cases – the 460X has full steel front and top panels for extra durability and gorgeous good looks.

CORSAIR Crystal 460X RGB Tempered Glass, Compact ATX Mid Tower Case

- **Compact design, full size capabilities:** Don't let the compact dimensions of the 460X fool you -- it can house a full ATX motherboard and multiple GPUs.
- **Liquid cooling capable:** With room for front, top, and rear radiators, you can choose to quiet down your GPU and CPU with liquid coolers just about wherever you want to.
- **Direct Airflow Path:** Drive cages are moved up and out of the path of cool air from the front intake fans and high-temperature components.
- **PSU and 3.5" Bay Cover:** Clean up the inside of your case by placing cables and drives behind two modular, clean, and refined PSU and 3.5" bay covers.
- **Easy to Clean:** Easily access dust filters on front, top, and bottom mean you'll never spend more than a minute getting dust out of your system.
- **Easy to Build:** Tool-free drive installation, side panel access, and tons of cable routing options and tie downs means you can spend less time building your PC and more time using it.
